

FOAM BUSTER®

EXTREMELY FAST ACTING FOR PROMPT PROBLEM RESOLUTION!

FOAM BUSTER® is a unique blend of non-hydrocarbon premium defoaming agents that are highly effective in all water-based drilling fluids. The cause of foaming can and does come from the changing dynamics of the mud system and FOAM BUSTER® provides a broad range solution where single component products are less effective.

Advantages & Benefits

- ◆ Contains no oil, will not sheen or fluoresce
- ◆ Continues to work even after initial treatment
- ◆ Non-toxic

Physical Properties

- ◆ Specific gravity: 1.05
- ◆ Appearance: Dark, particle laden liquid
- ◆ pH: 8.0

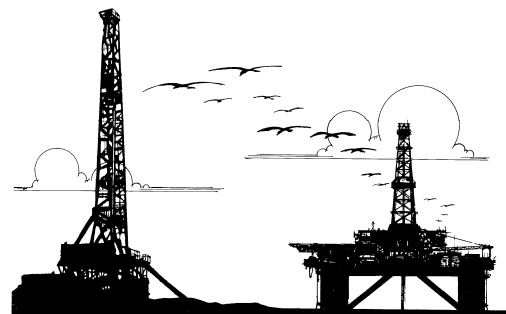

Packaging

- ◆ 5-gallon (18.9 L)

Product Recommendations and Mixing Procedures

- ◆ FOAM BUSTER® should be added directly to the problem area in the system.
- ◆ Will eliminate foam when dispersed over surface in a spread application.
- ◆ No special mixing requirements.
- ◆ Use as needed.
- ◆ Shake or stir well before using.
- ◆ Normal system treatment concentration - 0.04 to 0.9 %
